WindCast IQ Capacity & Farm Upgrades

Smarter models, sharper forecasts, all within the AG2 Trader platform.

Continuously updating farm list with new farms coming online and retired farms removed.

Farm count **increased from 581 to 776** across 8 supported regions.

Contact Sales@AtmosphericG2.com for more information today.

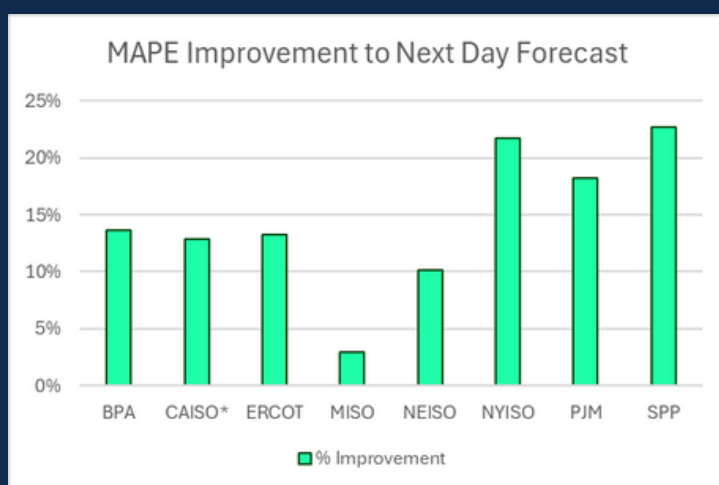

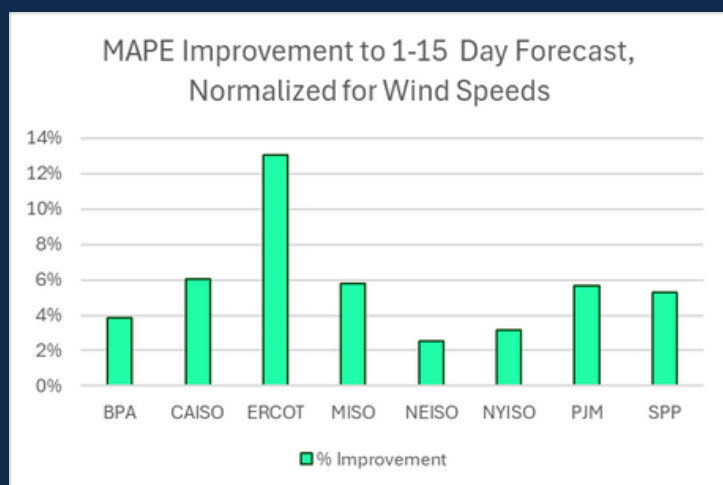

Enhanced value for both new and existing users!

Fully integrated with AG2 Trader platform.
Additionally accessible via API or FTP, hosted by us or the customer.

Comprehensive new models powered by **Atmospheric G2** will result in **better forecasts, better farm data**, all within the new AG2 Trader platform.

Mean Absolute Percentage Error (MAPE) Improvements with Upgrade

- **6% improvement** to overall MAPE for all ISOs for 1-15 day Forecasts
- **15% improvement** to MAPE for all ISOs for Next Day Forecasts

* CAISO normalized for wind speed

- Rebuilt modeling system developed in-house for improved forecast skill and precision.
- As applicable, the name(s) of the node in which a wind farm is connected to has been updated.
- Already have it? Now see more farms and improved forecast skill.
